it already the weakest of the three candidates in the North he has mousen rance of being able to carry a single State, and that in the North he has mousen rance of being able to carry a single State, and that the content is result between Mr. Flumore and Col. Fremont, and that every Southern from the Senate, that the day for compromises had the content is result between Mr. Flumore and Col. Fremont, and that every Southern from the Mr. Toombs, the leader and imprisonation of Southern Janatics in responded, "I single I had to bear it."—both meaning that here should be no further effort at content. We therefore ask our friends to stand for my their chosen candidate. We do not expect them to believe any prediction we may make until they are convinced of its truth, but we entreat them to wait patiently and observe make until they are convinced of its truth, but we entreat them to wait patiently and observe the rest position and prospects of the several parties, and we assure them, that, in less than early days, it will be apparent to every man of sense that Mr. Film re is the oily can late who can and will defeat the election of Colonel Fremont.

The whole number of votes in the electoral college is 290. Of these, the North has 17' and the South 120. It is thus exiders, the', if all the electoral votes of the Southers State were given to one candilate, he could so be state, are bound together by the office and siave were given to one candilate, he could so be states, are bound together by the soft mutual inwere given to one candi are, he could so be elected unless he could receive into at least 29 Northern votes. There is no probability whatever that Mr. Bucha a can obtain these Northern vote. It is not only very uncertain but really improbable that one stirgle Northeri state will give him its election in the Northern as, we believe, no Backanan electoral treket in any one of the Northern St. co. The State elections of last year show that the Democratic party was largely in the mining in annual northern and the north of the line to sympthic that the vote of New Jensey will be given the Northern and the north of the line to sympthic as my that is a set of last year that it is equally an analysis of the Northern st. The defection from the Democratic party in this State in favor of Back Republica is m, and the fact that the Stockton. Republican sm, and the fact that the Stockton party in favor of F imore, render the result in New Jersey absolutely certain. I on it all ready given up to Fremont. The Democrat Lieutenant Governor of Ill or, George K.

mer, has openly taken the field for Fremor; the German newspayers everywhere in the State have placed the name of the Fremor; the twenty placed the name of the Fremor; the twenty placed the name of the Fremor; and the wart German population there have transferred there allegrance from the Democratic to the Freesoil party. In Indiana It is generally acknowledged that Buchanan is in a minority, but, even should the opposition in that State which the electoral vote to Buchanan, that we would, when added to the whole vote of the South, be menuficient to elect Buchanan or to defeat Fremont.

Even in Pennsylvania, the only Northern State which the f lends of Buchanan flave presumed to claim for him, it has become evident that he is the third in the Presidential race. In that the ist the third in the Presidential race. In that he is the third in the Presidential race. In that he is the third in the Presidential race. In that he is the third in the Presidential race is upon a broken reed, for the R chanan party is powerless to arrest the torrest of Fremont, leave Buchanan by far the weakest of the three candidates in the North.

If the South relies upon Buchanan to defeat the election of Fremont, leave Buchanan broken reed, for the R chanan party is powerless to arrest the torrest of Freesoilism and has already succumbed to 12 threate map power.

That is a party in the North upon which the South can, and sooner or later will, depend to defeat and crush ou' this monster Freesoil sm. The American party three, following the s'andadad and maintaining the principles of its noble leader, "without looking to the chance of eucland the president and candidate, this the only truly habitonal ca

In such a crisis where will the old Whigs bey Will they content themselves with a lewsarm, acquiescent support of this, the only truly native cases or defeat;" is gallantly fighting this fright fall demon, sectionalism, and has everywhere a bright prospect of success. In Ohio and Illinona, a National American tocket is alread; in the field. In Indiana, Pennsylvania, New York, Massachusetts, New Jersey, Connecticut, and many other Northern States, arrangaments have been made for holding conventions to form Fillmore electoral tickets. New York, New Jersey, and California are certain for Fillmore, and in Ohio it is confidently believed that the Fillmore party is new stronger by many thousand votes than either of the others. In the New England States and in Pennsylvania it is very probable that there will be two Republican electoral tickets, one for Fremont and Dayton.
